

Promoting Family Conversations in Multiple Languages

A Grant Project from Missouri State University: Show-Me Multiliteracy Project

Family Survey

Please tell me a little about your family's background. What languages do you speak in the home, and what country does your family originate from?

---

---

---

---

---

What goals do you have for your student this year? In reading? In math? How do you feel about the school year for your child?

---

---

---

---

---

What things do you hope your child's teacher can learn about your family through the games, books, and/or survey?

---

---

---

---

---

Are there things you think the school or teachers could be doing differently in order to help schools and families work together to better support students with multiple languages at home?

---

---

---

---

---

Is there anything the teacher could add to this survey that would help families better share their experiences?

---

---

---

---

---

Overall, did your family and student enjoy the items that were checked out to you?

---

---

---

---

---

Is there anything else you'd like us to know?

---

---

---

---
